The Ten Pillars of Success

1. **How you think is everything.** Always be positive. Think success, not failure.

Beware of a negative environment and people.

2. **Decide upon your true dreams and goals.** Write down your specific goals and develop a plan to reach them.

3. **Take massive action.** Goals are nothing without action. Don't be afraid to get started. Execute. Just do it!

4. **Never stop learning.** Go back to school, read books, study YouTube videos, buy courses.

5. **Be persistent and work hard.** Success is a marathon, not sprint. Never give up. Work 8 days a week not 5! 5 is for average people. Create an extra day.

6. **Focus your time and money.** Don't let other people or things distract you. What you think about, comes about, what you focus on grows.

7. **Focus on the Big Picture.** Don't let the little details slow you down. You don't have to get it right, just get it going.

8. **Think outside the box.** Following the herd is a sure way to mediocrity and poverty.

9. **Deal and communicate with people effectively.** No person is an island. Learn to understand and motivate others.

10. **Take Full Responsibility.** Otherwise 1-9 won't matter. Radical responsibility. Everything is your fault. This is the secret to personal power.
